

## ARTICLE 13 – CURRICULUM AND INSTRUCTION

- 13.1 The School Board recognizes the right for the Association to consult with the School Board's designee in regards to matters relating to the definition of educational objectives, determination of content of courses and curriculum and selection of textbooks. The consultation shall include affected grade levels or subject areas reviewing and/or piloting the materials and submitting a recommendation through an evaluation or survey. The results will be shared with affected Bargaining Unit Members. These matters will ultimately be decided by the School Board whose decision is final and non-grievable.
